## You make ALL the difference

- NEVER put your child to bed with a bottle or cup of juice, formula or milk.
- Brush teeth twice a day. Before bed is especially important.
- Untreated cavities leads to infection, leading to tooth loss and serious overall medical problems.
- When brushing and flossing, bleeding is not healthy. It is a sign of infection.
- Smoking causes periodontal (gum) disease, the leading cause of adult tooth loss.
- Eat a well-balanced diet, limiting sugary snacks. DRINK WATER.
