

Riggs County Park

Purchase in 1998, the park is planned as a largely natural area park with 180 acres of wetlands, 70 acres of native prairie restoration and about 50 acres of active recreation. Currently the park provides a newly developed parking area, shelter, playground and walking trails for users. A master plan prepared for the park in 1998-1999 is guiding development of the property.

This park is the most recent addition to the County park system. At 300 acres, Riggs County Park is the County's largest park.
